High Quality Care For All

NHS Next Stage Review Final Report

Department of Health Overview

- Incentives especially in PBC
- Levers
- No central targets
- Integration of services
- Focus on upstream
- Patient practice partnership

High Quality Care For All

High quality care for patients and the public

- Every primary care trust will commission comprehensive wellbeing and prevention services, in partnership with local authorities.
- A Coalition for Better Health, with a set of new voluntary agreements between the Government, private and third sector organisations on actions to improve health outcomes.
- Raised awareness of vascular risk assessment through a new 'Reduce Your Risk' campaign.
- Support for people to stay healthy at work.
- Support GPs to help individuals and their families stay healthy.
- Extend choice of GP practice.
- Introduce a new right to choice in the first NHS Constitution.
- Ensure everyone with a long-term condition has a personalised care plan.

High Quality Care For All

Quality at the heart of the NHS

- Measures to ensure continuous improvement in the quality of primary and community care
- Independent quality standards and clinical priority setting.

High Quality Care For All

Working in partnership with staff

- Implementing wide ranging programme to support the development of vibrant, successful community health services.
- Placing new emphasis on enabling NHS staff to lead and manage the organisations in which they work.

Transforming community services

- Further review by DH with RCN
- Look at some metrics
- Clinical areas
 - Stroke rehabilitation
 - Leg ulcer
 - Continence
- Nurse family partnerships
- More money for training

Quality

- Licensing for minimum standard
- Accreditation processes for practices
- Will include peer/consultant/nurse/patient review
- The Care Quality Commission

Trust, Assurance and Safety –
The Regulation of Health Professionals
in the 21st Century

Presented to Parliament by
the Secretary of State for Health
by Command of Her Majesty
February 2007

Trust, Assurance & Safety Feb 2007

“The appraisal process, which will be a central component of revalidation, should be both formative and summative to ensure that the required standards are met”

Requires the Medical Royal Colleges to provide leadership in recertification

The registration of Health and Adult Social Care

Proposed topics for registration requirements:

- Care which meets the need, safely and effectively
- Safeguarding people when they are vulnerable
- Managing cleanliness, hygiene and infection control
- Managing medicines safely
- Making sure people get care and treatment in safe, suitable places, which support their independence, privacy and personal dignity
- Using equipment which is safe and suitable

The registration of Health and Adult Social Care

Proposed topics for registration requirements:

- Involving people in making informed decisions about their care and treatment
- Getting people's ongoing agreement to care and treatment
- Responding to people's comments and complaints
- Supporting people to be independent
- Respecting people and their family carers
- Having arrangements for risk management, quality assurance and clinical governance

The registration of Health and Adult Social Care

Proposed topics for registration requirements:

- Keeping records of the care and provision of treatment
- Checking that workers are safe and competent and give the people the care and treatment they need
- Having enough competent staff to ensure that people get the care and treatment they need
- Supporting working to give the care and treatment people need
- Working effectively with other services
